

Based Chad was stealth launched on March 20, 2024, at midnight UTC. Our main goal is to bring a strong community together around the well-known Chad meme. We believe this is an essential inclusion to the larger Base chain ecosystem, and seek to collaborate and integrate with other projects wherever reasonable.

Roadmap

Chad's have no use for roadmaps. We're going to take advantage of opportunities as they come up and position the community to be the most successful of all Base chain meme projects. In general, we'd like to find ways to build content that appeals to real people, and to educate these people about "onchain" technologies. Our motto is not meant to be clever, it embodies the life of a chad:

- 1. Wake Up.
- 2. Chad Harder.
- 3. Repeat.

Disclaimer

The Based Chad (CHAD) token is a digital asset that is subject to significant risks and uncertainties. CHAD is for fun, period.

CHAD is a speculative digital asset and not a financial instrument, security, or investment product. Its value is derived from market demand and speculation, and it is not backed by any tangible assets, government, or institution.

Enjoying CHAD is not suitable for all people. You should carefully consider your financial situation, life goals, and risk tolerance before deciding to enjoy CHAD.

By enjoying CHAD, you acknowledge that you understand and accept the risks associated with cryptocurrency, including but not limited to price volatility, market manipulation, and potential loss of funds.

The creators of CHAD, the development team, and any affiliated parties are not responsible for any losses or damages incurred by CHAD enjoyers.

Please consult with financial advisors, family members, and religious authorities before making any decisions.

You have been warned. Proceed with caution.
